

## 2025 Rogers City Farmers Market

### Market Policies

- All Vendors are required to have a system to weigh down their market tents.
- Each vendor is responsible for cleaning their own space at the end of the market day.
- Cancellation due to weather will be made at the prompting of the Rogers City Emergency Manager and vendors will be notified accordingly.
- Market Manager reserves the right to changed assigned parking spots if needed.
- No smoking or vaping of any kind.
- No music or radios, other than what is provided by the Market.
- We ask that you abide by the current CDC and Michigan Health Department public health guidelines.
- Vendors may supplement their inventory by selling a few items grown by others, excluding products that fall under Cottage Law. These are crops that cannot grow reliably or are not offered for sale in sufficient quantity by a Market farmer. Resold crops must be specifically limited, so as not to compete with the crops of local farmers.
- For products grown or produced outside of our local area (Presque Isle, Montmorency, and Alpena Counties) products must be labeled with source: Producer, City and State. Product may be individually labeled or addressed with stall signage. We want our customers to know where the products comes from.

***\*Any grievance will be brought in front of the Rogers City Farmers Market Advisory Board\****
